## Important Advice - Helpful Tips To Prevent Claims

---

**Our Park Home Insurance Policy** has been designed for owners of Residential **Park Homes** and Holiday Lodges to protect **you** against the risk of things happening suddenly which **you** could have not have expected such as fire, theft, **accidental damage**, flood and **storm**. It is not designed to protect **you** against losses that arise due to poor maintenance, manufacturing defects, or a gradual deterioration of **your park home**.

It is important that **you** read this **policy** in full, along with the **policy schedule** as **we** want **you** to ensure that **you** are fully aware of the extent of **your** cover, as well as the terms and conditions which are applied to **your** cover. **We** also suggest that **you** keep these documents in a safe place.

### **Important Note on the below:**

The information shown below as well as on pages 7, 8 and 9 does not form part of **your policy** but provides **you** important advice **you** should be aware of to prevent claims and only contains examples of what appears within **your policy** wording.

### **Escape of Water**

The cover **you** are provided for escape of water is designed to provide cover for damage to **your** property caused by water leaks. One of the largest risks of water occurs when **you** are away during the winter months (period between 1st November - 31st March, both days inclusive) when water pipes can freeze and burst, causing significant damage to **your home**.

It is important that **you** ensure **you** have taken steps to avoid this by keeping **your** central heating on low to ensure that **your** pipes do not freeze. If **you** decide to turn **your** central heating off whilst **you** are away, then **you** should drain all the water from **your** central heating system and all the water pipes to sinks, baths, and showers etc and switch the water off at the mains also.

**(Please see page 18 & 19 for more details about leaving your park home unoccupied)**

Many claims also occur due to water leaks caused by penetrating the seals around **your** bath or shower when the seals have worn away or split, where tiles have cracked or grouting has come free, or connections to washing machines, sinks or dishwashers become loose or dislodged. It is recommended that **you** take some time to periodically check in cupboards and under radiators to see if the pipes or radiators are weeping, as this may well be the start of more water escaping shortly.

Pipes that carry water often burst because they get worn out or corrode. If this happens, **we** will be able to pay for the damage that has been caused by the water escaping but will not pay for the repair to the pipe itself. Don't wait for the pipe to cause damage to **your home** and its **contents**, get the pipe repaired before **you** need to make a **claim**.

### Draining Down Your Water System For Winter Unoccupancy

If **you** plan to leave **your park home** or lodge empty for an extended period of the winter, and it is not possible to leave the heating on during this time, then **you** are required to drain down the entire system as a precaution to prevent freezing and any potential damage this may occur. If **your park home** has a sealed heating system containing antifreeze then this does not need to be drained down but antifreeze levels checked annually and particularly prior to the winter months. The hot and cold water system of a combi boiler should be drained as follows:

- Turn off and/or extinguish **your** water heater/boiler
- Turn off the mains water supply at the entrance to **your park home**
- Run all the taps in the property and flush all toilets too until water stops coming out
- If **you** have a hot water cylinder, empty it by opening the drain-cock at its base-attach a hosepipe to the drain-cock and run the water into a drain or bucket.
- Empty the rising main, and any low pipework if applicable, by opening their drain-cocks
- Put salt into the toilet pans to prevent water in the trap from freezing

**(Please see page 18 & 19 for more details about leaving your park home unoccupied)**

### Fire

Most house fires start within the kitchen area and many are caused by faulty electrical appliances or even unattended cooking pans and equipment – particularly frying and chip pans. In addition candles, cigarettes, electric blankets and overloaded plug sockets, bare and uninsulated wires or old electrical appliances cause a significant fire risk.

**We** suggest that **you** bear these risks in mind and take all the necessary precautions to ensure the safety of everyone within **your park home**. It is recommended that **you** have a fully working smoke detector installed within **your park home**, and perhaps **you** should also consider a fire blanket within the kitchen. Remember, **your park home** is mainly built of timber construction and fire can take hold and can spread quickly.

### Flood

If water has entered or is at risk of entering **your park home** due to flood, it is recommended that **you** should secure **your park home**, and move **your valuables** and essentials to an elevated place such as on work surfaces and on tables to minimise damage. **We** also suggest that **you** turn off all the utilities like power, water and gas supplies at their main source and disconnect any electrical appliances and place the plugs on-top of the appliances rather than on the floor.

### Impact Of A Motor Vehicle

If **your park home** or fence is damaged as a result of impact of a vehicle, make sure that **you** obtain their name, address and telephone number as well as the registration number of the vehicle that causes the damage. If **you** can obtain their insurance details at the time this would also be very useful. This information will be required by **us**, to help recover any payments made under **your policy** from the person who was responsible. Also if anyone witnessed the impact, obtain their details too.

### Maintenance Of External Walls

**Your park home** has been built of mainly timber and **we** suggest that **you** ensure that **your park home** is well maintained externally to ensure that water does not penetrate the outer paintwork which will cause damp inside **your park home**. All leading **park home** manufacturers recommend that **you** should colourwash the outside of **your park home** at least every two to three years with a good quality exterior paint similar to that used by manufacturers. **You** should also regularly examine the outer walls for hairline cracks as a result of natural shrinkage of the exterior cladding and fill any such cracks.

### Maintenance Of External Windows and Doors

**You** should regularly check the seals between the window and door frames and the walls to ensure the exterior mastic/silicone joints are not cracked or perished, and replace should this be evident.

### Maintenance Of Roof and Guttering Checks

**You** should regularly check the condition of **your park home** roof tiles to ensure they have not moved, displaced or damaged. In addition **you** should also ensure that **your** gutters do not become blocked by moss, leaves etc. Some areas like flat roofs are difficult to inspect. If **you** cannot check them yourself, **we** recommend **you** employ a relevant expert to do this for **you**.

### Maintenance Of Internal Air Vents

The internal air vents to **your park home** should remain unobstructed at all times as they are designed to ensure that there is a continuous airflow throughout **your park home**. Blocking or obstructing these vents will create damp and condensation within **your park home**.

### Maintenance Of External Skirting To Your Park Home

It is recommended that **you** ensure that there is plenty of ventilation to the underside of **your park home** and that any air-bricks to the skirt would not be covered and that there should be a free flow of air throughout the underside of the **park home**. There should also be a continuous gap between the drip rail of **your park home** and the skirt of no less than 25mm to ensure that damp does not get transferred from the ground and into the walls of **your park home**.

### Storms

**Park homes** are designed and built to withstand damage by all but the most extreme weather conditions. Normal weather conditions should not cause damage to a **park home** which is well maintained. Damage to a poorly maintained **park home** is not covered by this **policy**. It is important therefore that **you** keep **your park home** in a good state of repair.

---

## Important Advice - Helpful Tips To Prevent Claims continued

---

### **Subsidence and the base of your park home**

**Subsidence** damage is caused as a result of ground movement affecting **your** property. The most common signs of **subsidence** are visible cracks to the base of **your park home** or within the brick skirting. New **park homes** and/or newly prepared ground will often move for reasons other than **subsidence** and this is natural **settlement** which is not covered by this **policy**.

**Subsidence** and other types of ground movement can be difficult and complex to repair. It is important that **you** tell us as soon as possible if **you** think **your park home** may be affected.

Please be aware that unless **your park home** is sited on **your** own **land** the drains below the base and the base itself is owned by and is the responsibility of the site owner who **you** should contact in the first instance if **you** have concerns about it.

On occasions movement to **your park home** may be caused by inadequate or deteriorating supports or jacks to the chassis so it is important to check **your park home** chassis and supports periodically. This can be done by viewing through the inspection hatches within the skirt of **your park home**. Do not go under the home yourself, if need be contact a professional.

### **Theft**

Incidents such as theft or malicious damage on residential and lodge parks are not common. When a theft does occur they are often carried out by 'opportunistic criminals'. **Your park home** and the property within it is more likely to be burgled if accessible entrances are not locked and secured. It is not recommended that **you** let anyone into **your park home** who **you** do not know, and it is not recommended to leave them unaccompanied at anytime.

Garages and outbuildings are also attractive to the opportunistic criminal as they are easier to break in to, and often contain valuable tools and garden furniture. Ensuring that these are locked and not leaving doors open and unattended is another important step to minimising the risk of theft.

If **you** do need to leave **your park home** unattended, it is recommended that **you** do what **you** can to make it appear that it is in fact occupied. Getting a neighbour to collect **your** mail will help, as well as cancelling the milk and any other regular deliveries. Use timers to turn lamps on and off if **you** have them, and even getting a neighbour to park their car on **your** drive occasionally, as well as getting them to put **your** bin out on the day of collection, and bringing it in when it has been emptied will also help.

### **Making sure your cover stays in place**

**We** asked **you** a number of questions when **you** purchased **your policy** and it is important **you** tell **us** if any of these things change.

These parts of **your policy** are called conditions. They can be found on Pages 37, 49, 55 and 57. In other words, **your** cover remaining intact may be conditional on **you** providing us the right information at the start of **your policy** and then letting us know if **your** circumstances change.

### **Taking care of your property**

**You** and **your family** must take all reasonable precautions to avoid injury, loss or damage and that all practicable steps are taken to safeguard the property insured from loss or damage.

**You** must maintain the property insured in a good state of repair.

### **Cancellation – If we wish to cancel**

**We** can cancel this contract of insurance by giving **you** thirty (30) days' notice in writing. Any return **premium** due to **you** will depend on how long this contract of insurance has been in force.

**We** will only cancel this contract of insurance or any part of it for a valid reason or if there are serious grounds to do so such as:

- Non-payment of **premium**;
- Non-cooperation or failure to supply any information or documentation **we** request;
- **We** establish that **you** have provided **us** with incorrect information;
- The use of threatening or abusive behaviour or language;
- Failure to take reasonable care of the property insured.

Any **premium** due to **you** will be calculated on a proportional daily rate basis depending on how long this insurance has been in force. No return of **premium** will be given if a **claim** has occurred during the **period of insurance**.

### **Cancellation – If you wish to Cancel**

This insurance has a cooling off period of fourteen (14) days from either:

- the date **you** receive this insurance documentation; or
- the start of the **period of insurance**

Whichever is the later.

If this insurance is cancelled then, provided **you** have not made a **claim**, **you** will be entitled to a refund of any **premium** paid, subject to a deduction for any time for which **you** have been covered. This will be calculated on a proportional basis. For example, if **you** have been covered for six (6) months, the deduction for the time **you** have been covered will be half the annual **premium**.

If **you** cancel this insurance outside the cooling off period, there will be an additional charge, of 15% of the total **premium**.

If **we** pay any **claim**, in whole or in part, then no refund of **premium** will be allowed and the full annual **premium** will be payable.

## General Conditions continued

### Premiums paid and up to date

If the **premium** is paid under a monthly instalment plan and a **claim** has been settled during the current **period of insurance**, **you** must continue with the instalment payments.

### Payment by credit agreement condition

If **you** pay **your premium** by instalments under a credit agreement made available by **Park Home Assist Insurance Services**, **you** must pay each instalment when it is due. If **you** miss an instalment and do not pay it within the time frame permitted by the credit provider, **you** will have to pay all **money you** owe along with any charges. Please refer to the applicable agreement **you** have with the credit provider for full terms and conditions including charges and payment **schedule**.

If **Park Home Assist Insurance Services** does not receive this payment by the date they have stated, **we** will cancel this insurance in accordance with the Cancellation section of this **policy**. If **you** or others have not made a **claim** under this insurance, **we** will refund the proportionate part of **your premium**.

If the amount shown on **your schedule** represents less than 100% of the full value of **your buildings** (the cost of replacement as new, site clearance, transportation and resiting), **we** will only be able to settle claims at a percentage **you** are insured for. For example if the value of **your buildings** shown on **your schedule** only represents 80% of the full value then **we** will not pay more than 80% of **your** claims.

- c) Between 1st November and 31st March both days inclusive, if the **park home** is left without an occupant for more than 48 hours **you** must drain down the entire water system as a precaution to prevent freezing and any potential damage this may occur. If **your park home** has a sealed heating system containing antifreeze then this does not need to be drained down but antifreeze levels checked annually and particularly prior to the **period of unoccupancy**. (Please refer to Draining **Your** Water System For Winter Unoccupancy On Page 7). In addition all water tanks must be emptied by leaving both hot and cold taps fully open with plugs removed throughout the **park home**.

Or

If **you** wish to leave the water supply turned on between 1st November and 31st March both days inclusive, **you** must ensure:

- The entire home benefits from a heating system being gas or oil fired central heating or a geothermal or full electric system (not night storage heaters), fitted with automatic controls and a separate thermostat. The system must be set to operate continuously for 24 hours of each day (not controlled by a timing device) and the thermostat set to not less than 13 degrees Celsius and all internal doors must remain open throughout the **park home** and where fitted the loft hatch left open.

Or

- If the heating system as described above is installed and additionally fitted with a 'frost stat' that is designed and installed to override all the heating controls, irrespective of their functional status, then this may be set to operate at no less than 4 degrees Celsius.

## Section 1 Buildings Conditions

Conditions that apply to section **1 (buildings)** only.

### Settling claims

How **we** deal with **your claim**

1. If **your claim** for loss or damage is covered under section one, **we** will pay the full cost of repair as long as:
  - the **buildings** were in a good state of repair immediately prior to the loss or damage;
  - the **sum insured** is enough to pay for the full cost of rebuilding the **buildings** in their present form;
  - the damage has been repaired or loss has been reinstated.
2. If the **buildings** were not in a good state of repair **we** may deduct an amount from **your claim**.
3. **We** will not pay the cost of replacing or repairing any undamaged parts of the **buildings** which form part of a pair, set, suite or part of a common design or function when the loss or damage is restricted to a clearly identifiable area or to a specific part. **If the loss or damage is covered by this insurance we may:**
  - Arrange for repair, replacement or reinstatement using one of **our** suppliers;
  - Pay the cost of repair; or
  - Make a cash settlement

### Your sum insured

4. **We** will not reduce the **sum insured** under section one after **we** have paid a **claim** as long as **you** agree to carry out **our** recommendations to prevent further loss or **damage**
5. If **you** are under-insured, which means the cost of rebuilding the **buildings** at the time of loss or damage is more than **your sum insured** for the **buildings**, then **we** will only pay a proportion of the **claim**. For example, if **your sum insured** only covers one half of the cost of rebuilding the **buildings**, **we** will only pay one half of the cost of repair or replacement.
